

TELECOM SYSTEM SOLUTIONS

HxP and Associates, Inc.

Are you a start-up company or one that's expanding or relocating and need a cost-efficient, state-of-the-art telephone system that will keep you a step ahead of your competition?

Are you a small/medium sized business and would like to:

- sound like a large company?
- reduce monthly connectivity expenses?
- have a more productive office?
- close more business?

Are you a large company with multiple locations locally or throughout the USA with a need to reduce telecom expenses?

Are you running your business and competing using last century telecom technology?

If you answered "yes" to any of these questions, HxP can help you!

HxP and Associates, Inc., is a company designed with you in mind. We listen to you and then recommend, leading edge, custom telephone system solutions. We are **FREE** unbiased telephone systems consultants representing the leading telecom

equipment manufacturers. We partner with most carriers too and together we arrive at that perfect telecom solution that saves you time and money much more quickly than you or your staff can.

Have you thought about:

- Multi-site networking without long distance fees
- Remote VoIP phones that function like on-site extensions. (This reduces gasoline expenses too.)
- Off-premise forwarding and "reach-me" calls
- Automatically recording all calls or selective calls
- Auto-attendant with virtually unlimited call routing; no call will go unanswered and redundant receptionists can be reassigned
- Reducing your monthly telecom expenses

A cost-efficient custom-designed phone system that increases customer service, office productivity, employee satisfaction and helps you close more business is a step in the right direction.

If you need a new telephone system, if your are moving, if your telephone system was installed in the last century or if your monthly carrier bill is too high, we need to talk!

Call or email us today for **FREE** telecom consulting!
